

It's been a busy six months at Full Measure! We have been fortunate to continue our growth as an organization since receiving the CCA designation this past November. We have added new partners to our ranks and delivered impactful results for our clients. A few highlights to share:

- The welcoming of SUNY Rockland (NY), York College (NE), Jefferson State Community College (AL), and Riverland Community College (MN) as new partners
- Full Measure Education was awarded a patent that supports our work in bridging the communications gap between students and institutions. The patent, "Systems and Methods for Selecting Communication Channels to Improve Student Outcomes" is filed with the United States Patent and Trademark Office, U.S. Serial Number 62/398,35.
- In conjunction with our first partner, Louisiana Delta Community College, we released a white paper examining the impact of personalized communications and actionable self-service. The paper highlights the impact we have had through the end of 2016.
