JUST ADDS UP

Almost every 4-year degree requires 120 credits. For a 2-year degree, it's 60 credits. Added up, you'll need at least 15 credits per semester to graduate on time.

4-YEAR DEGREE

120

Credits

÷ 8

Semester

2-YEAR DEGREE

60 Credits

÷ 4 Semesters

15 Credits /
Semester

15

IS FLEXIBLE

Students can split up 15 however they want. It just has to add up to 30 for the entire year.

EXAMPLES

Fall

Spring

Summer

On-Time

$$15 + 15 + 0 = 30$$

$$12 + 12 + 6 = 30$$

$$15 + 12 + 3 = 30$$

$$12 + 15 + 3 = 30$$

However you split it up, it just has to equal 30.

15

IS ALL GOOD

- \ Save \$\$\$ by not paying extra tuition
- \ Avoid taking on more debt
- \ Start working and earning faster
- \ Up your chances for making a higher GPA
- \ Reduce the odds that you'll drop out
